SECTION I

Data to be recorded and stored in computerised form

Article 24

Data to be recorded and stored in computerised form

(Article 125(8) of Regulation (EU) No 1303/2013)

- The information on data to be recorded and stored in computerised form for each operation in the monitoring system set up in accordance with Article 125(2)(d) of Regulation (EU) No 1303/2013 is set out in Annex III to this Regulation.
- 2. Data shall be recorded and stored for each operation, including data on individual participants, where applicable, in order to allow it to be aggregated where this is necessary for the purposes of monitoring, evaluation, financial management, verification and audit. It shall also allow the aggregation of such data cumulatively for the entire programming period. For the ESF, the data shall be recorded and stored in a way that allows the managing authorities to perform the tasks related to monitoring and evaluation in conformity with the requirements set out in Article 56 of Regulation (EU) No 1303/2013 and Articles 5 and 19 of Regulation (EU) No 1304/2013 and Annexes I and II to that Regulation.
- 3. Where an operation is supported by more than one operational programme, priority or Fund or under more than one category of region, the information referred to in fields 23-113 of Annex III shall be recorded in a manner that allows the data to be retrieved broken down by operational programme, priority, Fund or category of region. It shall also be possible to retrieve the indicator data referred to in fields 31-40 of Annex III broken down by investment priority and by gender, where applicable.
