Interreg project management camp
03 – 06 July 2018
Wroclaw, Poland

Objectives

During the event you will:

- Discuss all stages of the project management cycle in the context of Interreg. For each phase of the cycle you will be asked to identify at least three main aspects of Interreg project management which call for programme officers' assistance and guidance. These will be highlighted throughout the event in order to enable you to discuss these with colleagues back at your workplaces.
- Practice your facilitation and presentation skills, which are essential for effective communication with project beneficiaries and applicants. Through dynamic discussion, role-play and peer review you will have the chance to reflect on your own practice and identify useful tips on how you can communicate more effectively.
