

# The Interreg Sudoe Programme

**New initiatives in Southern Europe  
and Mediterranean**

*Cooperar está en sus manos*

[www.interreg-sudoe.eu](http://www.interreg-sudoe.eu)

# 1. The transnational cooperation programme Interreg V-B Sudoe

## SUDOE eligible regions

All entities located in

- Spain – CCAA continental/Baleares/Ceuta/Melilla
- France – 6 regions
- Portugal – Continental
- United Kingdom– Gibraltar
- Principality of Andorra (can not receive ERDF assistance)

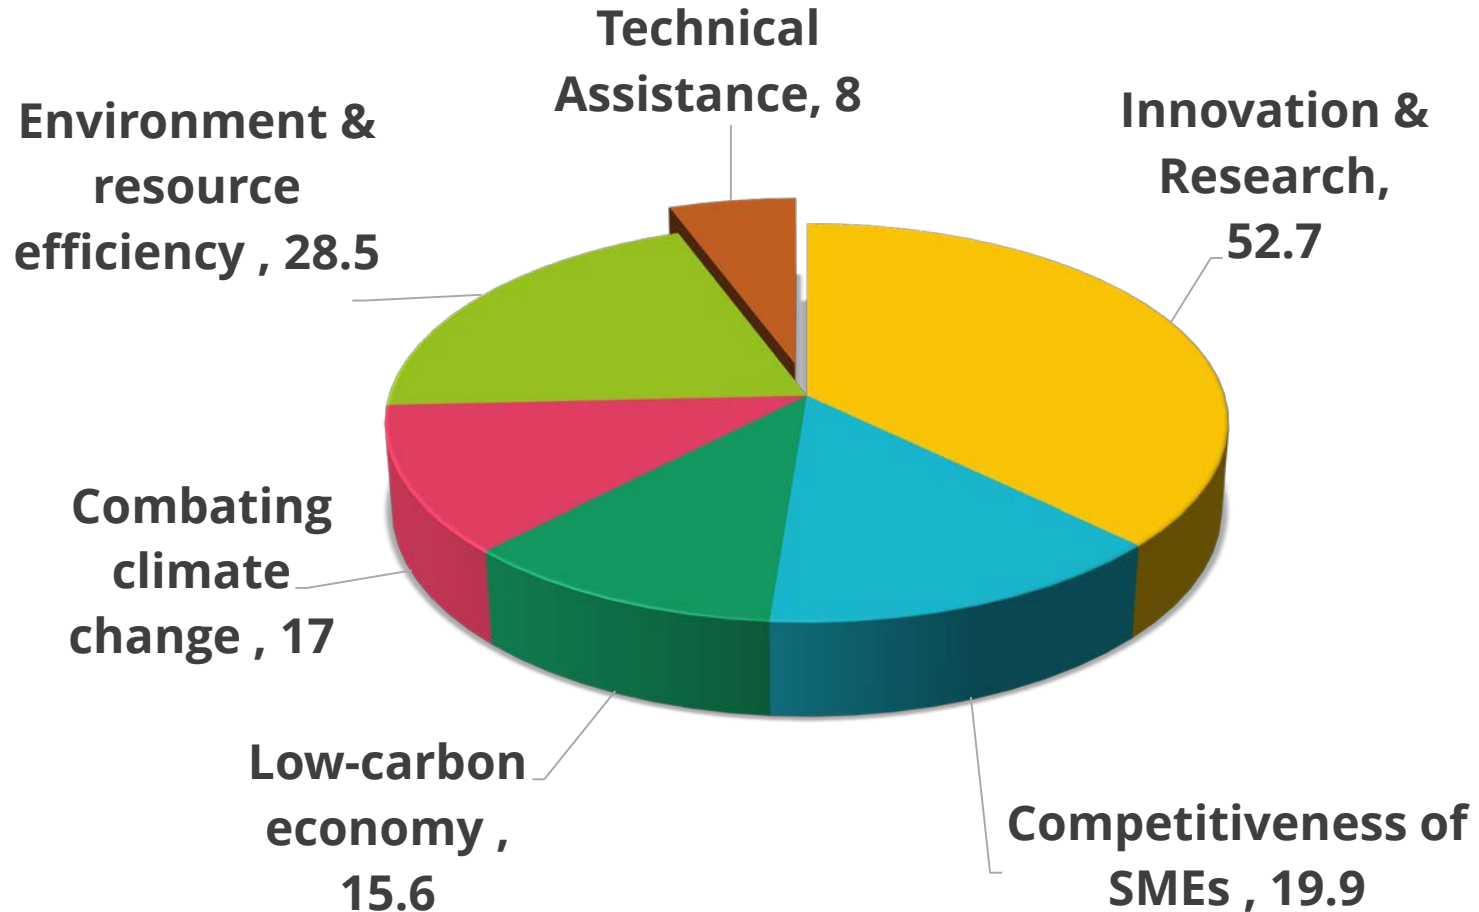

Other regions outside the Sudoe:  
Entities can not be beneficiaries,  
that is, receive funds. They may  
participate as associate partners  
(not benefiting from ERDF funding)

## The Sudoe budget (in euros)

<b>ERDF grant</b>	<b>106 810 523</b>
	<b>+</b>
<b>National</b>	<b>35 069 456</b>
<b>counterparts</b>	
<b>Total</b>	<b>141 879 979</b>

## 5 Priority Axis + 1 priority for TA

# Amount allocated per priority

	n° approved projects	amount allocated	
Axis 1	27	€	41.083.859,44
Axis 2	7	€	8.769.730,58
Axis 3	4	€	6.017.416,60
Axis 4	4	€	7.366.127,29
Axis 5	14	€	21.421.585,78
<b>Total</b>	<b>56</b>	<b>€</b>	<b>84.658.719,69</b>

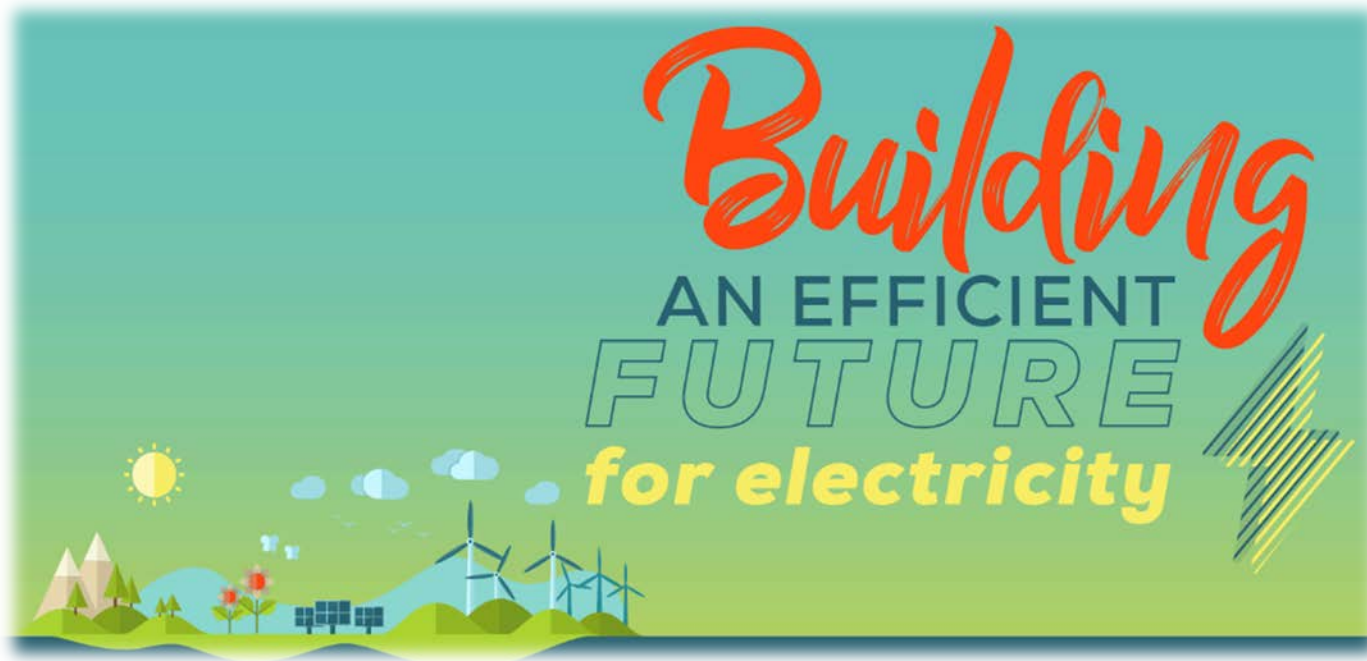

## Sudoe calls calendar

	2015	2016	2017	2018	2019
<b>Innovation &amp; Research</b>					
<b>SMEs</b>					
<b>Low carbon eco.</b>					
<b>Climate change</b>					
<b>Environment &amp; resource efficiency</b>					

**TOTAL ELIGIBLE COST**  
**(€) 1.808.285,41**  
**ERDF GRANT (€)**  
**1.356.214,07**

The project was launched to meet the requirements of energy transition, improving the efficiency of electrical systems. It aims to promote collaborative projects between research centers and companies in order to stimulate transnational cooperation, innovation and technological transfer.

## TOTAL ELIGIBLE COST

(€) 1.666.683,38

## ERDF GRANT (€)

1.235.012,54

VINOVERT is a project for the wine sector in SUDOE region, in order to guarantee the competitiveness of companies in the long term. The project focuses on new market requirement in terms of health and environment. Anticipate the new demand for sustainable viticulture offering guarantees of 'naturalness' and environmental responsibility is key.

## TOTAL ELIGIBLE COST (€)

1.374.128,40 €

## ERDF GRANT (€)

993.096,31 €

The main objective of the ClimAct project is the promoting of the transition towards a low-carbon economy in schools. By means of smart energy management, renewable energy, and a change in behavior, ClimACT will improve the energy efficiency of buildings and will reduce their environmental expenses and their risks to health and safety.

**TOTAL ELIGIBLE COST (€)**

2.009.646,44

**ERDF GRANT (€)**

1.507.234,83

FIRE-RS proposes to reduce the impact forest fires by providing emergency agencies and coordination centres with an innovative tool for the early detection and the efficient management of fires. During the project a multidisciplinary and international team will create a platform which by the use of new technologies will give very precise information almost in real time on the perimeter of the fire, its location, and the existing danger.

**TOTAL ELIGIBLE COST**  
(€) 2.125.392,00  
**ERDF GRANT (€)**  
1.594.044,00

the AGUAMOD project proposes the creation of a platform for the integrated management of water resources all over the territory. This will give the benefit of a vision shared by different countries and regions to take into account changes in climate, water uses, and governance. Moreover, the project will create a formative game and an animation video as information tools.

Thanks for your attention
