

# Developing common indicators for Interreg post-2020

**14 May 2019**  
Leuven, Belgium

## **Developing common indicators for Interreg post-2020**

**14 May 2019**

**Leuven, Belgium**

### **Outline**

DG REGIO is consulting Member States in order to discuss the indicators of the different Policy Objectives for the post-2020 programming period. To collect feedback on common Interreg specific indicators, DG REGIO and Interact have established a separate process.

First the indicators were discussed in the 'informal working group on indicators' meeting the 19-20 February in Vienna. The informal working group on indicators consists of about 20 representatives from Interreg cross-border, transnational and IPA programmes. Therefore, DG REGIO has also developed a fiche, explaining the definition, content and the measurement of each indicator. Based on the feedback of the informal working group this fiche was now updated by the Evaluation Unit of DG Regio.

At this meeting, we will follow up on this work, in order to inform representatives of all Interreg programmes about the status of the indicators post-2020. The aim of this event is to discuss the indicators fiche which are proposed for the next programming period 2021-2027.

The target group of the meeting are representatives from Joint Secretariat, Managing Authorities, and National Authorities.
