Interreg projects before submission

24 October 2019, 10.00 am CET
Q & A session
Online

Outline
Earlier this year we published the first two online courses about project management in Interreg: Project idea generation and Project development. With this Q & A session we would like to offer learners to ask any questions they might have regarding the content of these two courses. It is an opportunity to interact with course developers and other learners.

We will start at 10.00 am CET. The duration of this session will depend on number of questions received but we will finish by 11.30 am CET the latest.
The session will not be recorded.

Objectives
We would like to give the participants an opportunity to:
- ask any questions they might have based on what they have learned in the Project idea generation and Project development courses;
- contribute with their knowledge of good practice in Interreg project management;
- share what the projects in Interreg struggle the most with;
- suggest any type of information that would be useful to add in these two courses.

Please note: there will be no presentations in this online session. The content of discussions will completely depend on participants' questions.

Who is this for?
We encourage everybody that took the online course on Interreg project management to participate at this online session. The registration is open to programme and project staff.

If you have not taken one or the other course yet, please do so before the online session.

Practicalities
For this online event we will use Zoom conferencing tool. You don't have to be registered in Zoom in order to join the meeting.

If you are not familiar with Zoom please take a look at one-minute-video about how to join a meeting in Zoom: https://youtu.be/vFhAEoCF7jg.

The link you will need to use to join the session and participants instructions will be shared in the confirmation email.

Please note: your microphone and video feed will be turned off by default. To interact please use the chat function and wait for further instructions from your hosts.
