Climate trends in the Pyrenes:

A greener Europe

A link between three countries

- A. Climate change **monitoring & study** in order to help the territory adapt to its effects.
- B. Prevention & solutions of **natural hazards** exacerbated from climate change.

A greener Europe

(A) The Pyrenean Climate Change Observatory (OPCC2)

- The OPCC2 aims to **monitor, understand & communicate** climate change in the Pyrenees in order to reduce the vulnerability of natural & human ecosystems and adapt to its effects.

A greener Europe

(B) Natural hazards

- Several projects work on cross-border conventions & protocols in order to act in a coordinated way in the face of all kinds of natural risks intensified by climate change.
