

keep.eu 2019 training sessions

(including training session organised for ENI CBC programmes by TESIM)

16/10/2019

Helsinki, Finland

22/10/2019, 24/10/2019

Prague, Czechia

29/10/2019

Madrid, Spain

Outcomes

Participants Participating programmes in Annex 1

These outcomes are not only meant to summarise the discussions that took place at the keep.eu training sessions during the month of October 2019, but also to present the foreseen impact of these discussions on the development of keep.eu.

This document covers the conclusions of the two main items discussed during these meetings: The coming back-office of keep.eu and the development of keep.eu in the short term. Discussions of the post-2020 development of the tool focused on the uptake of keep.eu-developed and hosted list of operations and the need of a single identification code for project partners.

Direct editing, by programmes' representatives, of the programmes' project-partner-call data

Once the new keep.eu back-office (presented by Interact during these training sessions) comes online, the programmes that already have editors for their project-partner-call data in keep.eu will start using it. In due time, Interact will send an e-mail to these programmes with the calendar of the migration from the old to the new back-office.

The programmes with no access to keep.eu's back-office at the time of the migration will be granted access to this new back-office once their project-partner-call data is added to keep.eu, and they are given the credentials to access the back-office. The process for nomination of keep.eu editors by the programmes is as now (the heads of each programme's Joint Secretariat or Managing Authority appoint the editors or, if someone else does it on their behalf, at least one of them needs to be in copy of the appointment).

Further to receiving the nomination from the programme, the nominated colleagues' credentials will be upgraded to editor of keep.eu in the system. These colleagues will then be able to make the needed changes to 'their' project-partner-call data in keep.eu, as shown during the keep.eu training sessions.

In any case, Interact will email each and every programme with detailed information on the next steps.

Further developing keep.eu

Besides providing training in keep.eu to the participants at the meetings, the keep.eu team took home from the participants of all four sessions tips on developments that can be useful for keep.eu.

The tables below show the suggestions received from the participants of all four meetings and how Interact plans to deal with them in the near future.

Tables 1 to 14. Suggestions for keep.eu developments and their planned rollout

1. On data collection-processing-publication	Planned rollout
Excel template for data sending in the keep.eu website	To be delivered with the coming website, in early 2020
Possibility for the programmes to directly update their project data in keep.eu	Not applicable (N.a.) (already in place: KAMUT)

2. On capitalisation efforts	Planned rollout
Useful data for capitalisation efforts: Achievements, outputs, results, library (project partners)	Not applicable (N.a.)
Add indicators that are currently only in programmes to the project pages / project information	To be studied in 2020

3. On project search	Planned rollout
Predictive text	To be studied in 2020
Typo tolerant (e.g. function 'Did you mean...?')	To be studied in 2020
Allow refine search	N.a. (already in place)
Use also indexes (indicators) as search criteria	To be studied in 2020
Use also project budget, per intervals (brackets), as search criterion	To be rolled out in 2020
Get search result URL per partner (link reference to partners in project pages to partners page in section 'Search for partners')	To be rolled out in 2020

4. On the promotion of keep.eu	Planned rollout
Use thematic weeks (e.g. EWRC)	To be rolled out in 2020
Make focus groups about keep.eu to increase user's experience and their engagement	To be rolled out in 2020
Use more social media to share the use that the programmes make of keep.eu	To be rolled out in 2020
Improve visibility of the tool at interreg.eu	To be rolled out in 2020
Newsletter using existing communication channels, conveying success stories and videos	N.a. (already in place)
Beneficiaries / applicants can be reached by programmes through, e.g., programme events	To be rolled out in 2020
Target programme stakeholders	To be studied in 2020
To promote use: Guidelines for users to use tool	To be rolled out in 2020
Include keep.eu in the programmes' newsletters	To be rolled out in 2020
Updates & future plans	To be rolled out in 2020

5. On the possibility to share keep.eu with other (namely programmes') websites	Planned rollout
Important section for sharing: Statistics	To be studied in 2020
Important functions for sharing: Project search / map with partners & lead partners from the programmes at hand with the possibility of adding other programmes	To be rolled out in 2020
Alerts whenever a partner from the region is newly introduced in the DB	To be studied in 2020
Important functions for sharing: Objectives / results / achievements of partners from the region	To be rolled out in 2020
Share a banner with a link to keep.eu	To be rolled out in 2020
Important section for sharing: Partner search	To be rolled out in 2020
Important section for sharing: Reports	To be studied in 2020
List of operations	To continue in 2020 and in the coming programming period

6. On additional sources of data for EU macro-regional strategies	Planned rollout
Check relevance of each project for the Strategy's strategic objectives, information by the programmes	To be studied in 2020
Add projects with no funds	To be studied in 2020
Update flagship projects every 6 months (source: EC)	To be rolled out in 2020

7. On overall functionalities (general improvements) to add to keep.eu	Planned rollout
There should be a button for sign up, not only log in (e.g. log -in/sign -up)	To be delivered with the coming website, in early 2020
Searches now trending in keep.eu	To be rolled out in 2020
Specific code (id) for partner	To be studied in connection with HIT

8. On Statistics	Planned rollout
Include EN(P)I CBC	EN(P)I is included, however with no indication on maps. This latter feature to be studied, and possibly rolled out, in 2020

9. On useful data to identify synergies among projects in keep.eu and promote experience sharing	Planned rollout
Themes are useful	N.a.
Geographic search is useful	N.a.
To improve: Heat maps need better explaining / heat maps hard to interpret	N.a. (already in place)
To improve: Show partnership map by default instead of heat map	To be delivered with the coming website, in early 2020
To improve: Increase the awareness of keep.eu among partners	N.a. (see promotion)
Keep.eu is (can only be) a first step only	N.a.
Need to make sure that the phrases in the drop down menus are fully visible	To be delivered with the coming website, in early 2020
Keep on improving user friendliness	To be delivered with the coming website, in early 2020
Put in place introductory videos for what there is in keep.eu story telling	To be delivered with the coming website, in early 2020
To improve: How to measure programme's impacts	To continue to monitor within the scope of the Evaluation Network
To improve: How to measure the impact of deliverables	To continue to monitor within the scope of the Evaluation Network
Search results summary should also show number of programmes	To be delivered with the coming website, in early 2020
Even if not possible to show on a map, name of regions from non -NUTS countries should be a search criterion	To be studied, and possibly rolled out, in 2020
Produce video for programmes' websites mainly for beneficiaries, including instructions on how to use keep.eu for this target	To be rolled out in 2020

9. On useful data to identify synergies among projects in keep.eu and promote experience sharing	Planned rollout
More social media	N.a. (see promotion)
Workshops for beneficiaries	To be rolled out in 2020
Check for types of projects in one region (for no overlaps & capitalisation)	N.a. (already in place)
Present keep.eu at final events of programmes	To be studied in 2020
Tutorials	To be rolled out in 2020
Testimonies in newsletters / social media	N.a. (see promotion)

10. On Partner Search	Planned rollout
Order of the partner search results to be filtered by users	To be rolled out in 2020
Search partner per project	To be rolled out in 2020
Search partner per name and/or English name	To be delivered with the coming website, in early 2020

11. On multilinguism in keep.eu	Planned rollout
Links from multilingual pages should be to programmes covering countries with the languages at hand (not for projects described in those languages)	To be studied in 2020

12. On promoting projects using keep.eu	Planned rollout
Promote more keep.eu in programmes' materials and events (also for political stakeholders)	To be studied in 2020
Project data updates should be at least every two months	N.a. (already in place)
Videos and materials for programmes to show that their projects are part of a bigger picture.	To be rolled out in 2020
Programmes to inform project partners about the publication in keep.eu of the latter's projects.	To be rolled out in 2020
Have in programme pages a newsfeed about programme events	To be studied in 2020 in connection with interreg.eu
Include in the programme pages publications by projects	N.a. (already in place)
Include more info to the boxes with info with partners / projects on map markers (e.g. pictures)	To be studied in 2020

13. On improving keep.eu's support to programming efforts	Planned rollout
Create new field to understand if a project capitalises on a previous one	To be studied in 2020
Section on methodology of project development	To be studied in 2020
Promote networks (e.g. suggestions such as in amazon.com)	To be studied in 2020
Create library of good practices by theme (get projects, e.g. from Project slam, Regiostars, EU in my region, reviews from Interreg groups)	To be studied in 2020
14. On improving keep.eu by integrating other sources into it	Planned rollout
Connect with other EU DBs	To be studied in 2020
PEACE deprivation map as an example	To be studied in 2020
Also for the HIT: All programmes to have a unique partner id	To be studied in connection with HIT

Presentation given at the sessions (as in last session)

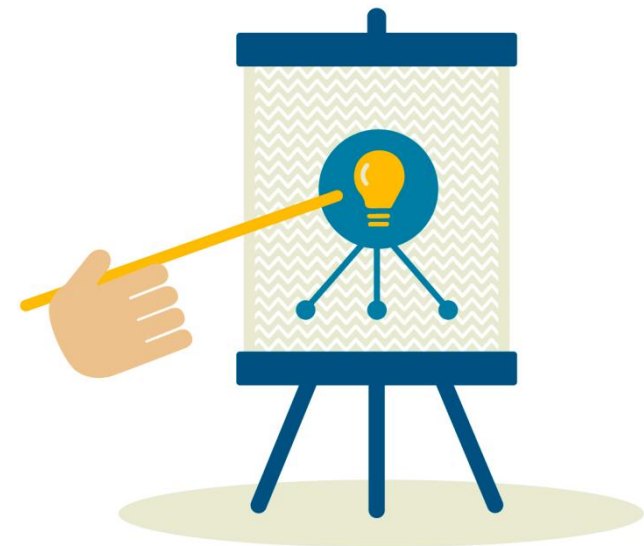

Data management in keep.eu

Training

October 2019 | Helsinki, Finland; Prague,
Czechia; Madrid, Spain

Rafael Agostinho, Interact

Janne Kiilunen, Interact

Data, why it really matters

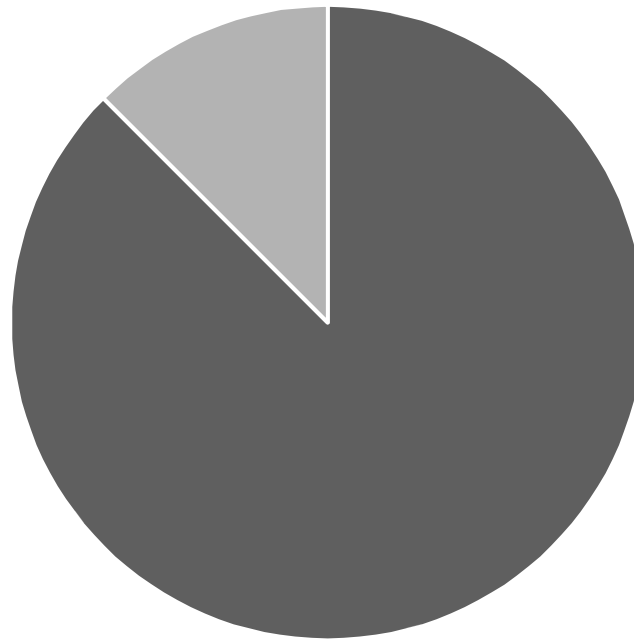

Yearly expenditure in medical research (2009)¹

Overall (est., 2019 prices): USD 120 billion

1 - Chalmers I., Glasziou P. (2009)

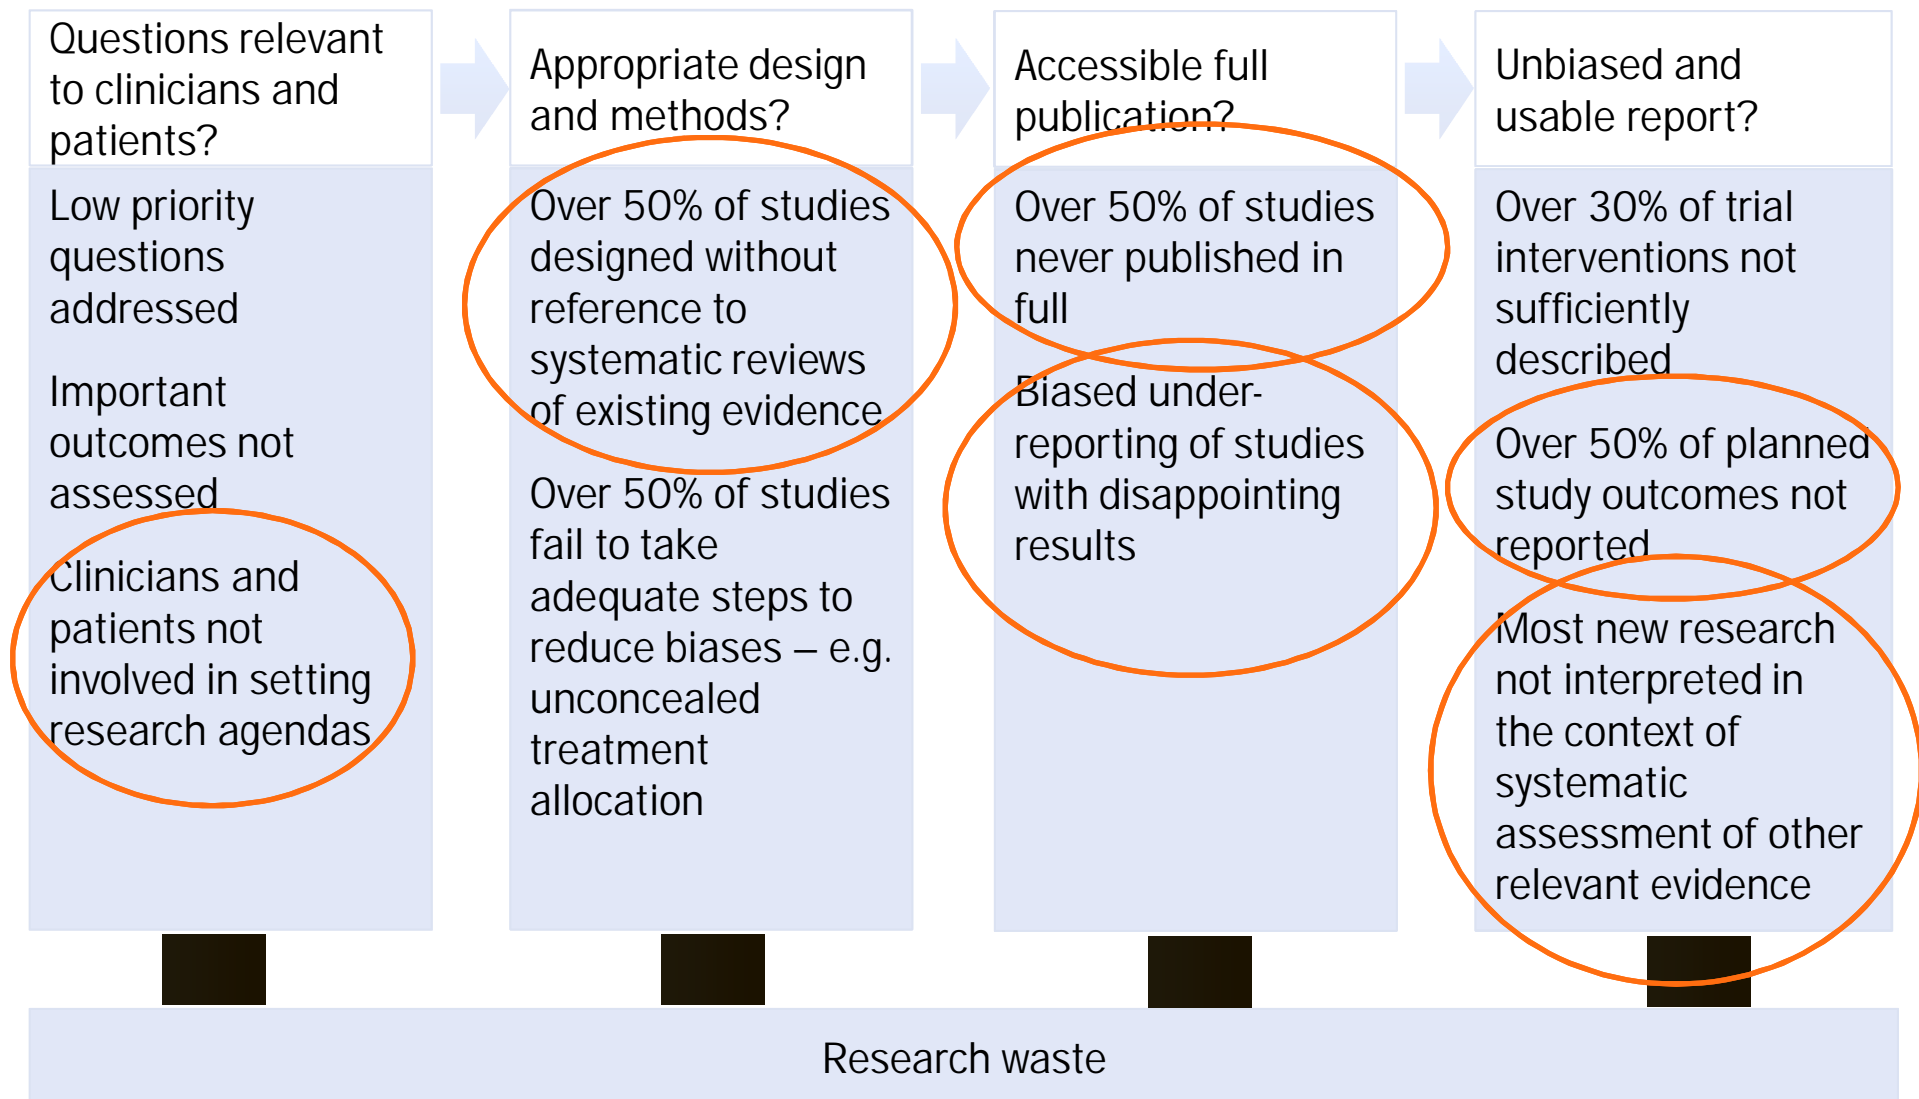

Yearly expenditure in medical research
(est. 2009)¹

Overall (2019 prices): USD 120 billion

Waste (2019 prices): USD 105 billion

1 - Chalmers I., Glasziou P. (2009)

Why?¹

Our work today: Goals

- Guarantee that we at keep.eu learn as much as possible from you
- Guarantee that the programmes have a key & continuous contribution to the evolution of keep.eu

Our work today: Goals

- Guarantee an advanced knowledge of keep.eu
- Guarantee adequate information regarding the coming website and back-office
- Guarantee proficiency in the use of the coming back-office
- Post 2020: Kick off the work for keep.eu 3.0. Guarantee shared expectations and the use of keep.eu's potential (e.g., lists of operations)

Our work today: Schedule

09.30 Keep.eu's (advanced) functions

12.30 Lunch

13.30 Direct editing in keep.eu (published & imported data)

15.30 Coming next

16.45 End of meeting, how to stay in touch!

What do you do?

What do you do?

Why does your job matter?

Our work today: Where are we at?

09.30 Keep.eu's (advanced) functions

12.30 Lunch

13.30 Direct editing in keep.eu (published & imported data)

15.30 Coming next

16.45 End of meeting, how to stay in touch!

Introduction to fundamental keep.eu structure, sources & concepts

<https://www.keep.eu>

- **Main concepts:** Programme, project, partner, partnership, NUTS regions, open data
- **Structure & definition:** Regulations, HIT, eMS, Keep 2.0 group + seamless integration with previous periods
- **Sources:** Programmes, European Union macro-regional strategies

Introduction to the keep.eu data workflow

KAMUT (keep.eu automatic and manual updating tool)

- Application used for editing and importing data to keep.eu, including partner geocoding
- Built-in modules:
 - Language detection and thematic assignment tool (including translation to EN)
 - Work online as excel format
 - Partner vs partnership management
 - Automatic and manual data validation / cleaning
 - SO-TO-IP-TP reference tool
 - Project output configuration
 - Validated partner email address list
 - Revisions

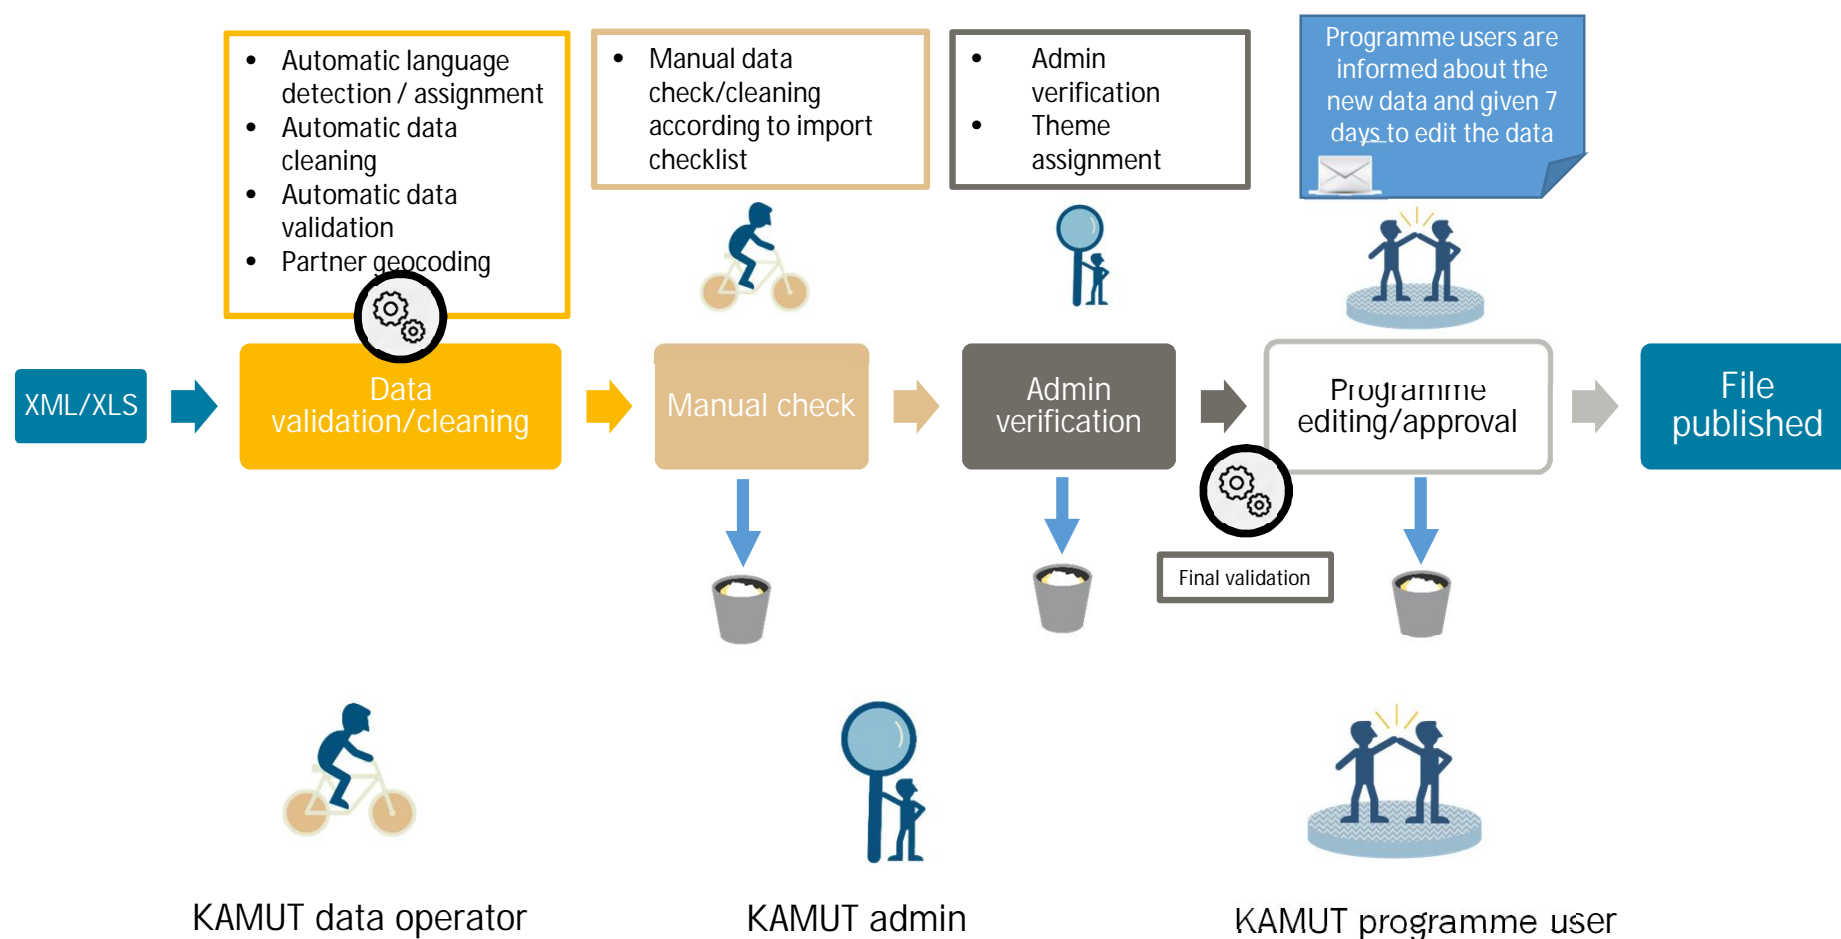

KAMUT (keep.eu automatic and manual updating tool)

- Validators and automatic data cleaning:
 - Date formatting
 - HTML tags replaced with the actual formatting
 - Country names
 - Programme names mapping
 - Language separation
 - Programme specific objectives
 - Format of the different fields
 - Mandatory fields

KAMUT roles

- **KAMUT data operator:** Data operator role allows importing of data files and performing all operations to the imported data.
- **KAMUT Admin:** Data supervisor role allows all operations including thematic assignment changes and data publication.
- **KAMUT Programme user:** Any programme user that has been granted access. Can edit imported files once submission is done by KAMUT data operator. Can also edit, and publish, at any time published data.

Data importing

Introduction to the keep.eu document-collection workflow

(e.g. [Project - Kulturgeschichte Digital / Cultuurgeschiedenis verdigitaald](#))

Group work

Group work

For a prize, please answer the following three questions:

- What is the overall project representativeness of keep.eu for the 2014-2020 period?
- How many 2014-2020 programmes cover this NUTS2 region?
- How many 2014-2020 projects in keep.eu so far include partners from this very same region?

Group work

And now not for a prize, please answer the following question:

- What is the average budget of the 2014-2020 projects in keep.eu with partners from Spain?

Group work

And the last question also for no prize:

- Can I use keep.eu to contact the Portuguese organization Universidade de Aveiro and the responsible people for 2014-2020 project COCKLES?

Group work Questions per group

Group 1

1a. If you could copy or use any part of keep.eu to your programme's website, which part, or parts, would you use? Do you know of current possibilities to use parts of keep.eu in your website?

1b. Do you have concrete examples of improvements to be made to the connection between eMS and keep.eu?

Group 2

2a. What improvements would you make to Statistics?

2b. Please search for examples of multilingualism / language identification in keep.eu. Please share them with the room.

Would you have any proposals regarding the use of multilingualism in keep.eu?

Group work Questions per group

Group 3

3a. How to follow up on projects years after they were finalised?

3b. How to contribute to a more transparent and well coordinated set of data on European funding?

Group 4

4a. How to promote experience sharing using keep.eu?

4b. Please find concrete examples of language that should be simplified or somehow improved in keep.eu. Please let us know a few examples.

Group work Questions per group

Group 5

5a. Which data is there in keep.eu that is helpful in programming efforts? What additional data to collect in order to further help in programming efforts?

5b. What improvements would you make to Programme search? Please familiarise yourself with the coming Programme search in keep.eu (to be published with the next website).

Group 6

6a. What kind of financial and / or legal data is there in keep.eu? Which financial and / or legal data should be added to keep.eu?

6b. How can we currently use keep.eu to tell show the results or impacts of Territorial Cooperation (also connected to national strategies)? How can this be improved?

6c. Is there legal / regulatory information on programmes in keep.eu? What else is needed?

Group work Questions per group

Group 7

7a. What improvements would you make to Project search? Please familiarise yourself with the coming Project & document search in keep.eu (to be published with the next website).

7b. How to promote projects using keep.eu?

7c. Would you create a newsletter for keep.eu? Why? For whom? What contents would you feature there?

Group 8

8a. What improvements would you make to Partner search? Please familiarise yourself with the coming Partner search in keep.eu (to be published with the next website).

8b. What goals would you propose to integrate ESPON / Eurostat / other sources' maps into keep.eu?

8c. Which data is there in keep.eu that is helpful in capitalisation efforts? Which additional data to collect in order to further help with the sector's capitalisation efforts?

Group work Questions per group

Group 9

9a. We are considering implementing the function 'Searches now trending in keep.eu' (further to a suggestion from a participant). Please add a few more examples of functionalities that could be of interest to users.

9b. What can be new sources of data for EU macro-regional strategies?

9c. What information is there in keep.eu re. EU macro-regional strategies? Would you add information?

Group 10

10a. How can we look for synergies among projects in keep.eu? Could this be improved? How?

10b. How can we look for synergies among programmes in keep.eu? Could this be improved? How?

Our work today: Where are we at?

09.30 Keep.eu's (advanced) functions

12.30 Lunch

13.30 Direct editing in keep.eu (published & imported data)

15.30 Coming next

16.45 End of meeting, how to stay in touch!

How to edit published data using new KAMIT - Projects

The screenshot shows a web interface for editing project data. The main window is titled 'Description' and contains a text area with the following text: 'With the objective of the transition to a low carbon economy, some countries and regions in Europe are developing energy and land use policies in separate ways by different administrations. To improve the energy sector in balance with the natural resource a challenge is to work on bridging those conflicting views and policies. BIO4ECO aims to improve regional and national policy processes and policy implementation...'. The text is in English, as indicated by the 'English' dropdown menu. A red 'Remove language' button is located to the right of the language dropdown. Below the text area, there is a blue 'Add language' button and a blue 'Add other language if needed' button. At the bottom right, there is a blue 'Apply' button and a large blue arrow pointing right with the text 'Apply changes' inside it. A blue arrow points to the text area with the label 'Edit text'.

Description

English ▼ Remove language

With the objective of the transition to a low carbon economy, some countries and regions in Europe are developing energy and land use policies in separate ways by different administrations. To improve the energy sector in balance with the natural resource a challenge is to work on bridging those conflicting views and policies. BIO4ECO aims to improve regional and national policy processes and policy implementation... the transition to a low carbon economy, in relation with renewable energy use, energy efficiency of building, and biomass. The main expected outcomes are: increase the share of renewable energy in the overall energy mix (17 M€ of ERDF funding benefited by the project), take into account bioenergy and bioeconomy in all planning and decision-making, and lay the groundwork for future integrated strategies and programmes for regional bioeconomy and carbon neutrality. BIO4ECO will organise interregional and local learning process by thematic workshops, study visits and local stakeholder groups meetings, to achieve a greater

4. Change partnership "Brainport Development N.V." street to Fellenoord 1 and update location
5. Add partnership "University of Aveiro" website to <https://keep.eu>
6. Add partnership "University of Aveiro" ENI funding to 10 000
7. Change call "2" budget to 3 000 000

Our work today: Where are we at?

09.30 Keep.eu's (advanced) functions

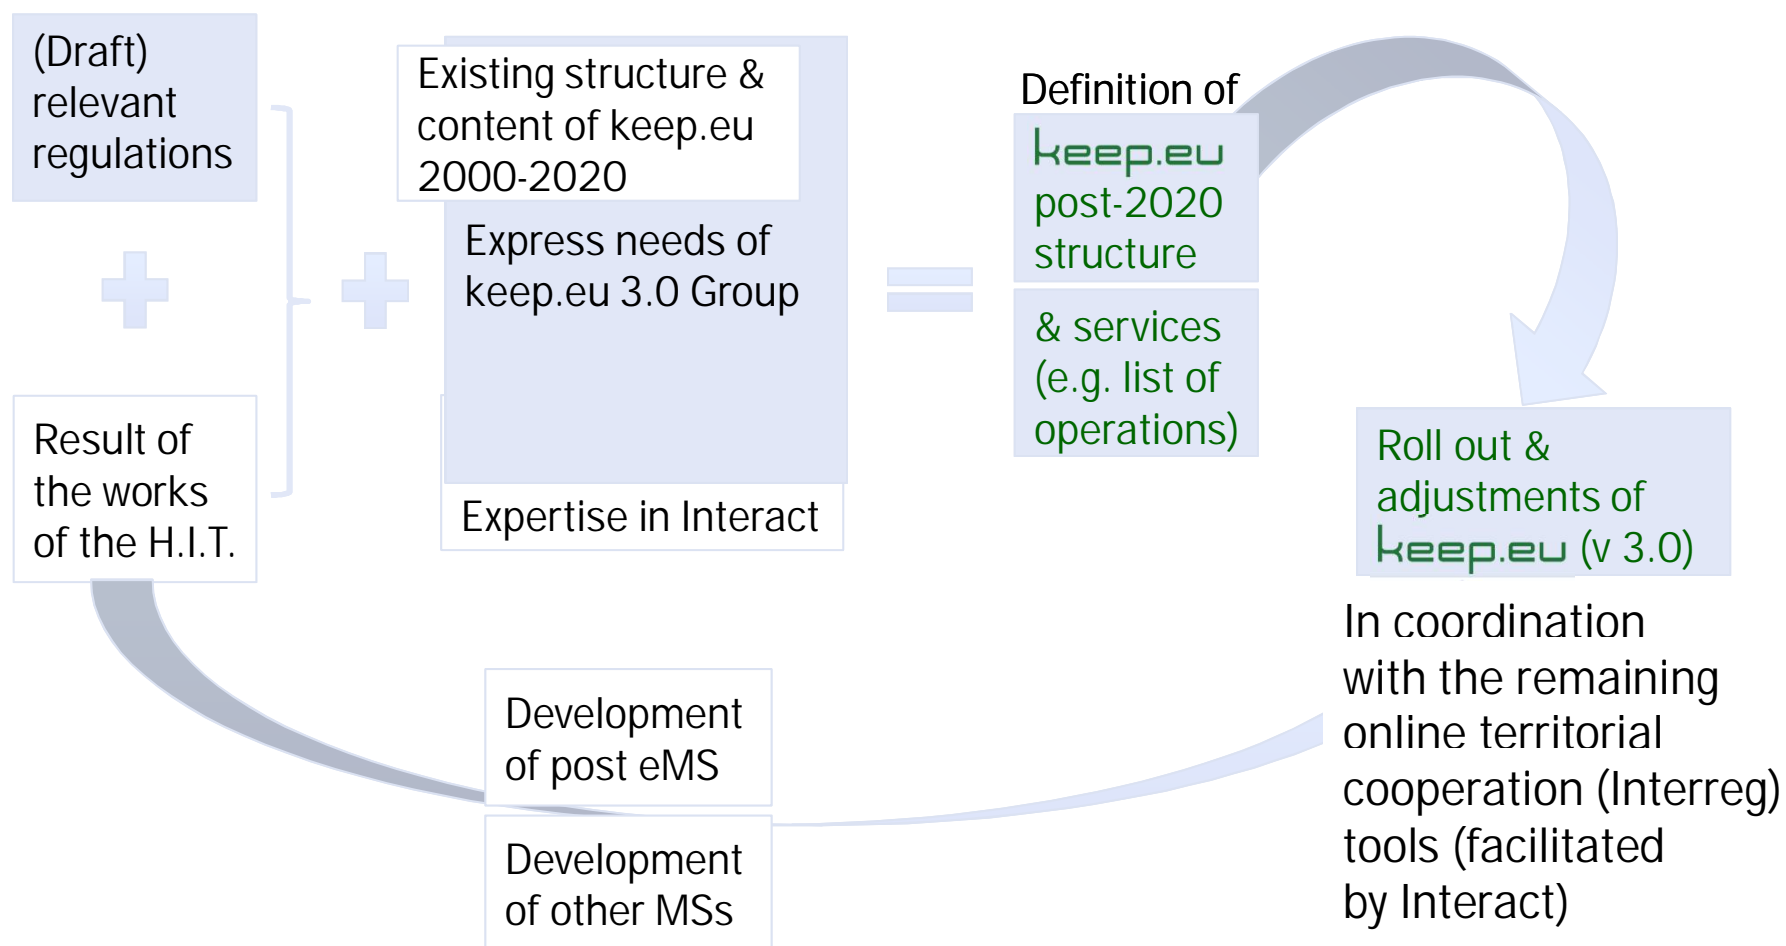

12.30 Lunch

13.30 Direct editing in keep.eu (published & imported data)

15.30 Coming next

16.45 End of meeting, how to stay in touch!

Definition of keep.eu's structure & content post-2020

Definition of keep.eu's structure & content post-2020

- Improvements in data collection
- Kick off of the keep.eu content / structure / service definition in the 2nd half 2020
- As of now: List of operations is a service strongly considered for 2021-2027. Preliminary interest in the room?
- Keep.eu 3.0 Group open to all programmes, Member States, European Commission

Still for 2014-2020

- Improvements according to discussions such as today's
- Collection of data
- Collection of documents
- Collection of project achievements
