

6th Core group meeting for the development of the Jems

11 November 2020 (9.30 - 14.30 CET)

DRAFT Agenda

6th Core group meeting for the development of the Jems 11 November 2020

Outlines

The Core group will meet for the sixth time to get an update on the state of play of the Joint Monitoring System (Jems) and jointly work on designing and specifying the new monitoring system.

Objectives

In this meeting, we will update Core group members on the work progress since the last Core group meeting organised in September, including the team update, implementation phase, implemented activities besides the development (branding, participation in relevant events), outcomes of Thematic group work, etc.

Another important topic of the meeting will be the analysis of the Jems survey on prioritisation. Together with Core group members, Interact will discuss results and review the time plan for delivery of the next modules according to the needs of the programmes.

As it was also the case before, during the meeting, Interact will propose several topics for discussions related to further specification of requirements to gather input from Core group programmes for opting for one or another solution.

6th Core group meeting for the development of the Jems
