DRAFT Agenda

## **7th Core group meeting for the development of the Jems 15 December/17 December 2020**

### **Outlines**

The Core group will meet for the seventh time to get an update on the state of play of the Jems and jointly work on designing and specifying the new monitoring system.

### **Objectives**

In this meeting, we will update Core group members on the work progress since the last Core group meeting organised in November, including the implementation phase, implemented activities besides the development (e.g. participation in the Jems Steering group) and outcomes of Thematic group work, etc.

As it was also the case before, during the meeting, Interact will propose several topics for discussions related to further specification of requirements to gather input from Core group programmes for opting for one or another solution. Discussions will be based on background papers, that will be sent out before the meeting.

## **7th Core group meeting for the development of the Jems** **15 December/17 December 2020**
