

# Disentangled reporting (?)

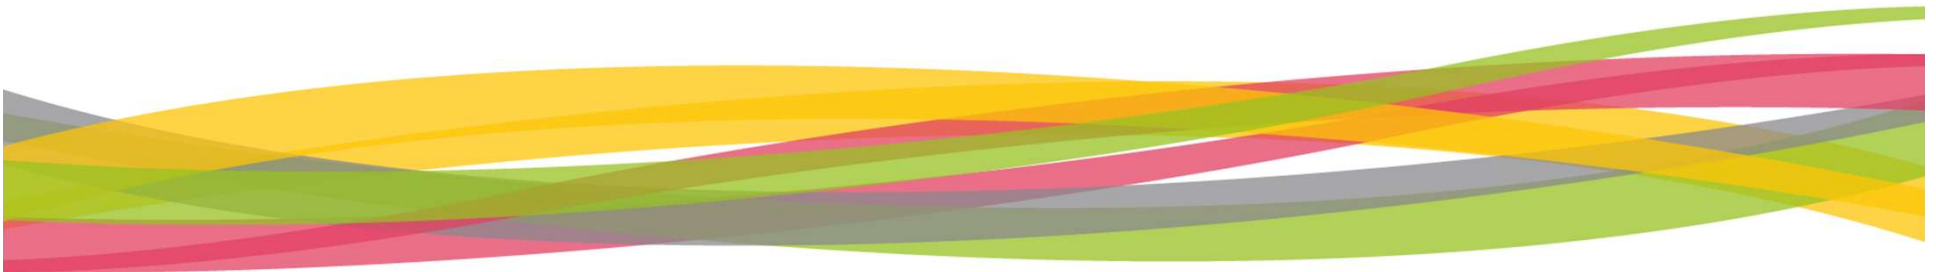

*Real-time reporting: fiction or reality? –*  
InterACT online event, 24 March 2021

Peter Racz

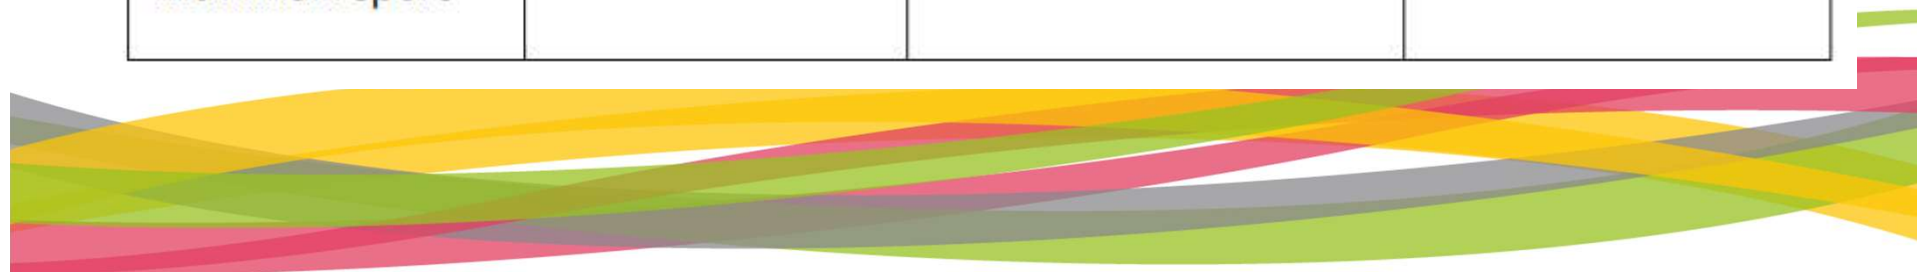

## This presentation is about...

- + Different reports - different report contents in NSRP
- + One step closer to see real time progress – project webspace
- + Questions...

Type of Report	Frequency	Obligatory	Subject to FLC
Basic	Every 6 months	Yes	Yes/No <sup>1</sup>
Finance report with basic report	Every 6 months	No	Yes
Full	Once a year	Yes	Yes
Finance report with full report	Once a year	Yes	Yes
Final	Once	Yes	Yes
Finance report with final report	Once	Yes	Yes

basic  
progress  
report

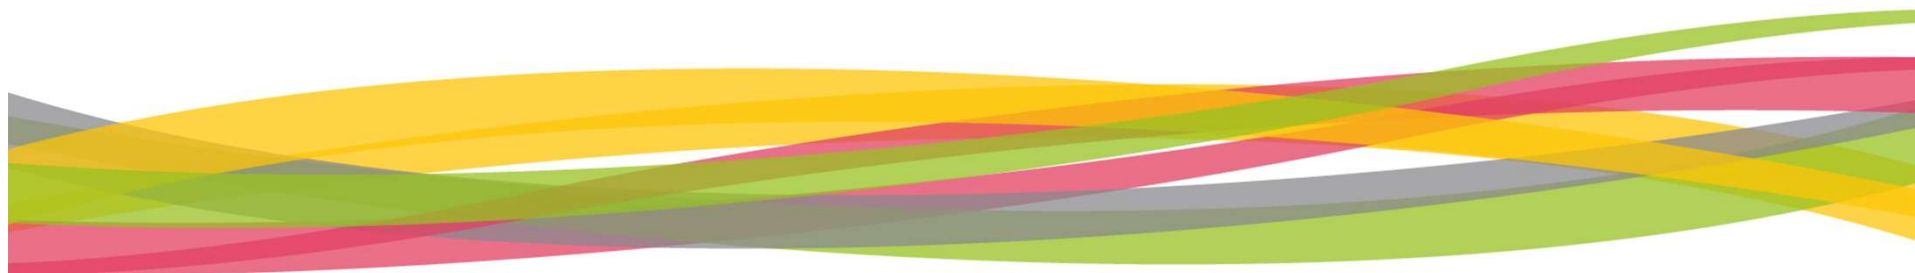

activity report

optional  
finance report

full  
progress

## My Projects

Status	Title
   7 	<b>NSRP -TEST</b> Call 7 Demo - NSRP TEST Full Application
   7 	<b>NSRP7demo</b> Call 7 Demo NSRP Full Application
   2   	<b>FDA1</b> Full Demo Application1 Full Application
   2  	<b>FDA12</b> Full Demo Application2 Full Application
   6 	<b>ISA</b> Isas Eol Call 6 Expression of Interest
   	<b>Isas Test</b> Isas Test

## WELCOME

Welcome to the Online Monitoring System

This is your one-stop point of access to the system directly in our online forms and save your time.

For upcoming call for applications, please check the announcements.

## ANNOUNCEMENTS

16/01/2019  
Video contest is now open!

15/01/2019  
Great interest in upcoming Implementation

11/01/2019  
Guidance for Calls 9 and 10 now available

CONFIGURATION

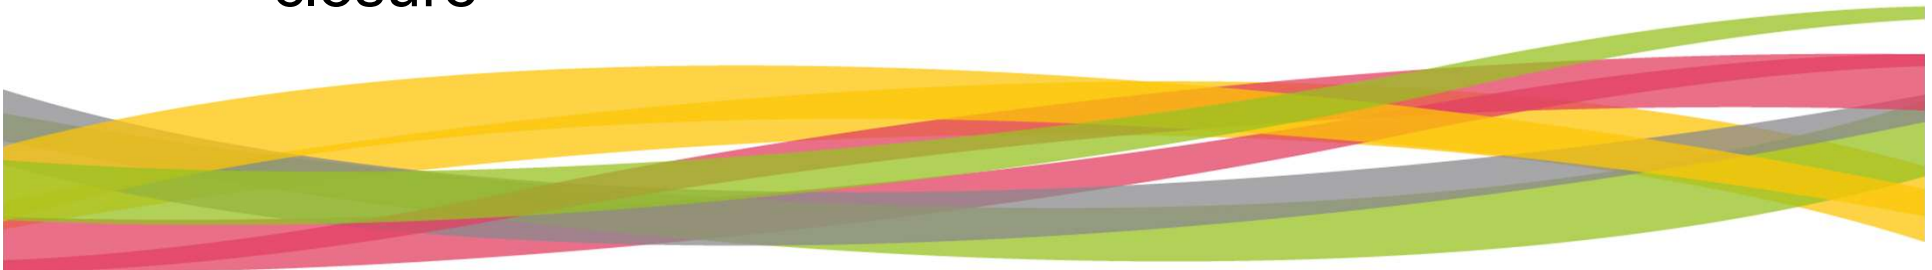

## Project webspace

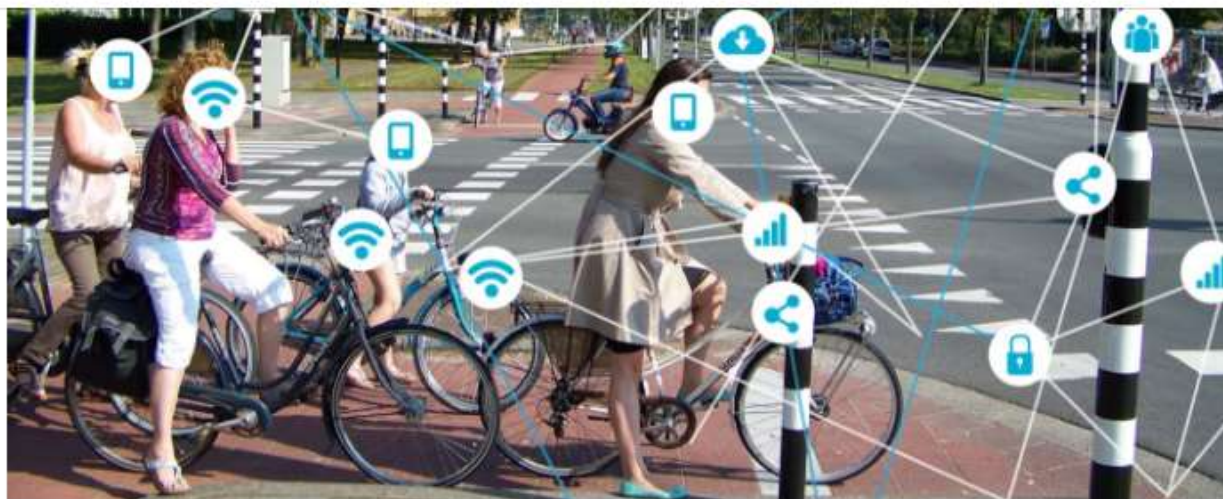

- Project websites integrated in the programme website
- Menu to be customized by the project
- News, Events, Output library, Community platform...
- Regularly updated (to be checked)

## Lessons learnt

- Plan proper resources for such a website (actually hosting more than 70 individual websites in NSRP)
- Be careful with connections to the monitoring system
- Helps in google hits/website ranking
- Helps in keeping project websites alive after project closure

### Welcome to the BITS website!

Bicycles and ITS (BITS) - A new multi stakeholder project on Bicycle and ITS (Intelligent Transport Systems) aiming to reduce CO2 emissions by 9% and increase bicycle use by 10% within target groups! Under the BITS project ten partners from top cycling countries (NL, DK, BE) or those about to become (UK, DE) came together in a consortium to raise awareness of best practices of "Smart Cycling", and to provide implementers with ready-to-use information and evidence from different regions. This project is believed to be the only one of its kind in the world. The BITS project, co-funded by the North Sea Region (NSR) Programme, has a budget of 5 million of euros over 3 years (2019 to 2022). For more information, please check the [about page](#).

### Become a member of the BITS community!

To really take Smart Cycling and the use of cycling data to the next level, we are convinced that it is crucial to connect existing stakeholders and benefit from each other's experiences, products and data. Therefore, we would like to invite you to join the BITS community - an active network of policy makers, businesses and anybody who is interested in cycling ITS and/or cycling data. The BITS community will be closely involved in the project and will be invited to BITS events, where they can meet other members of the community.

Interested in joining the BITS community? Subscribe to our newsletter [here](#) or contact us at [bits.interreg@gmail.com](mailto:bits.interreg@gmail.com).
