The workshop is designed as the first step of the support activity provided by Interact to the Interreg IPA-CBC Italy-Albania-Montenegro Programme, focussing on capitalisation, as envisaged in the roadmap agreed by June 4th.

It is meant **to promote**, using a participative approach, **a common understanding and shared orientations**, among the Interreg IPA-CBC Italy-Albania-Montenegro MA, JS, NIPs, NAs, about the **appropriate 'model'** of capitalisation for the 2021-2027 Programme as well as to provide the JS with **concrete help for the drafting of a proposal of capitalisation strategy**, identifying priorities, objectives, targets, responsibilities, and resources.

The following step of the supporting activity (scheduled in October 2021) will be dedicated to the **identification and detailed definition of the types, dimensions and timing of operational activities and resources that need to be addressed in the proposal of a capitalisation plan** that will ensure the success of capitalisation 2021-2027.
