

4th meeting of the keep.eu 3.0 Group

25 November 2021
Online

4th meeting of the keep.eu 3.0 Group 25 November 2021 Online

Outline

To promote the effective generation, collection and use of Interreg data are plain goals of keep.eu. Despite their simplicity, these goals are far from clear cut, which makes the path to attaining them not as uncomplicated as it might seem at a first glance. For example, how to gauge effectiveness? How to guarantee effectiveness in data generation? And effectiveness in use?

To address the issue of effectiveness of data is to address the issue of the data ecosystem. Interreg has come a long way as a community that produces, collects and shares data. Its progressive focus on information management has been improving its effectiveness, creativity and transparency. This has been facilitated by the many discussions held throughout the years, and also by processes and tools such as HIT, eMS and Jems, and keep.eu.

This meeting is organised within the scope of the keep.eu 3.0 Group, but open to all interested professionals.

Objectives

This meeting is meant to help shed light on a few matters that have the potential to help Interreg becoming more effective in how it deals with data on its programmes, projects, and project partners, namely:

- PIC, Participant Identification Code. What is it? Who and what is it meant for? How easy is it to use?
- In a world driven by networks of trust, can technology help find new Interreg project partners? What role is there for each platform? And for keep.eu?
- Typology of project and programme outputs/deliverables. What purposes does it serve? Can we come up with a simpler proxy?

By registering to this meeting, participants can also propose new perspectives and new items for discussion. Unlike previous meetings of the keep.eu 3.0 Group, this one will focus less on keep.eu and more on programme practices that can be better supported by data and information management.

Requirements for participation

No previous knowledge of any specific matter is required. Participants should be aware of what keep.eu is and how it works, in general.

4th meeting of the keep.eu 3.0 Group
25 November 2021
Online

Single day

Thursday, 25 November 2021

09.25 – 9.30

Check-in to the virtual meeting room and technical settings

09.30 – 09.45

Introduction

09.45 – 10.15

The Participant Identification Code (PIC) and the Synergies Mapping Tool

Daniel Szmytkowski, DG R&I, European Commission

Public data of Legal Entities - Accessible via REST APIs

Spiros Vazaloukas, DIGIT, European Commission

Q&A session

Janne Kiilunen, Interact

10.15 – 11.00

Good practice: The case of Interreg Central Europe's applicant community

Katarina Hanzelova, Frank Schneider, Interreg VB Central Europe

Q&A session

Linda Talve, Interact

11.00 – 11.25

Outputs and deliverables: The present, what's coming

Rafael Agostinho, Interact

11.25 – 11.30

Next steps
