

# eMS and how we all benefit from it

---

7 September 2022 | Vienna

**Petra Masáčová, Interact programme**

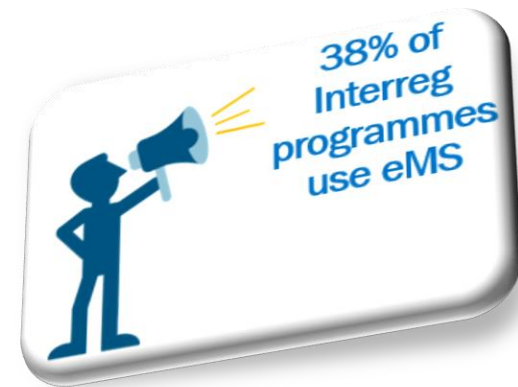

# eMS –

A free of charge electronic monitoring system provided by Interact to all interested programmes who sign the license agreement.

## What did we achieve?

- 37 (+2) signed license agreements:
  - 23 CBC programmes
  - 6 transnational programmes
  - 4 IPA CBC programmes
  - 3 ENI CBC programmes
  - Interact
  - (2 non-Interreg programmes)

**Savings for Interreg: up to 20 mio EUR!**

# eMS builds programme management capacities ...

## ...through changing practices/mindsets

### Between programmes:

- Community – building

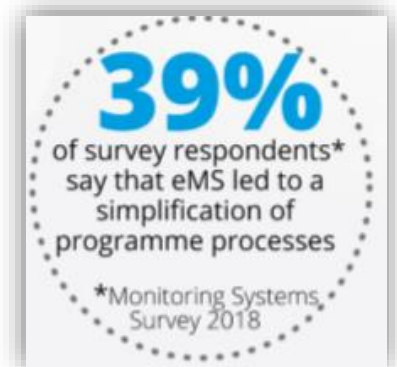

### Through improved systems and tools

- Community monitoring system
- Programme – specific plug-ins

### In programme authorities:

- Change to programme management processes
- Organisational flexibility
- Capacity for innovation
- Ability to manage change

## eMS and its impacts

### Efficiency

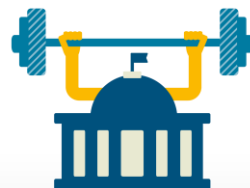

- Saves costs
- Saves staff resources
- Simplifies the
  - application/reporting process and
  - provides synergy effects

- Facilitates communication between programme authorities and improves transparency
- Promotes legal certainty for programmes
- Reduces errors that result from wrong data entry
- Positive effects on programme external communication

### Resilience

- eMS was a big change in programmes introducing the system and required them to adopt a proactive approach to change management

Dear eMS,  
thank you and good-bye!

Welcome, Jems!
