Workshop on P05 #2

Online, 26 January 2023

Outline

Policy Objective 5 (P05) stands out among the objectives of Cohesion Policy since it is strategy-based and focussed on the development of territories according to their specific needs.

For some of the programmes the approach is new and unprecedented and now is the time to develop the implementation system in full detail. This is the third workshop in a series of workshops where we want to present the different approaches to P05 and offer the opportunity for exchange among practitioners.

For this workshop we have invited the colleagues from Interreg Greater Region Programme to present their approach.
