Building capacity for PO5: Training workshop Strategy Board BG-TR

11-12 December 2023
Vienna | Austria

Outlines

Interact wants to support main actors of PO5 in the Interreg IPA programmes of Bulgaria with the neighbouring countries.

This training is a follow-up to the two-days training that has been held in Sofia in July.

Objectives

The training should support Strategy Board members and colleagues working for Operational Units (OUs) to jointly reflect on the experiences made in the implementation process up to now. More concretely the workshop should:

- Reflect on the first harvest of project ideas and place it in the context of an integrated territorial approach and the ITS
- Support preparation of the next steps
- Clarify the need for improvement in forthcoming calls
