

Successful management of Interreg-IPA CBC - How to get there?

9-10 June 2016 | Tirana, Albania

Outline

Interact is organising an event targeted to beginners or new staff working in Interreg-IPA CBC Programmes. We would like to offer an opportunity to strengthen the knowledge base needed to support the implementation of programmes and development of projects in the 2014-2020 period. At the event we will offer basic information about the main aspects of programme management in IPA co-financed cooperation programmes. Also, participants will have a chance to discuss the latest trends and requirements related to management of projects with a focus on a project's contribution to the programme's results sought. Exchange of ideas throughout the event will aid the identification of good practice that can be transferred to the work place.

Who is it for?

The event is dedicated to **IPA CBC-Interreg programmes' staff** from the Joint Secretariats, Managing Authorities, National Authorities and other programme bodies, whose task is to implement programmes and/or advise beneficiaries how to implement projects.

Format of the event

The seminar foresees an active contribution from all participants, with mixture of presentations to introduce topics, practical work and discussion among programmes.

Practicalities

Please register at the link <http://forms.interact-eu.net/ipa-cbc-programme-management>
